U. S. 7-30 LOAN.

Third Sei es. \$230,000,000.

Ohio Levee, Cairo, Illinois By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent, interest per aanum, known as the

7-30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into U. S. 7-30 Six per cent.

GOLD-BEARING BONDS

These bonds are now worth a handsome premium, and are exempt, as are all Government bonds, from State County, and Municipal taxation, which adds from one to three per cent, per annum to their value, ac cording to the rate levied upon other property. The in terest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or

The interest at 7-30 per cent. amounts One cent per day on a \$50 note. Two cents per day on a \$100 note. Ten cents per day on a \$500 note. Twenty cents per day on a \$1000 note. One Dollar per day on a \$5000 note. Notes of all denominations named will be promptly

furnished upon receipt of subscriptions. The Notes of this Third Series are perfectly similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency up to July 15th, at the time when

The delivery of the Notes of this Third series of the Seven-thirties will commence on the 1st of June, and will e made promptly and continuously after that date. The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate. The return to specie payments, in the event of which

only will the option to pay interest in gold be availed of would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency The only Loan in Market

now offered by the Government, and its superior advan

tages make it the Great Popular Loan of the People. Less than \$230,000,000 of the Loan authorized by Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within sixty days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subsbription to other loans,

In order that citizens of every town and section of the country may be afforded facilities for taking the Loan, the National Banks, State Banks and Private Banker throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which JAY COOKE, they receive orders. SUBSCRIPTION AGENT,
